HOUSING Overview

The Housing Office of Southeastern Baptist Theological Seminary seeks to provide affordable, safe and comfortable housing for all God-called men and women who come to Southeastern to prepare for Christian ministries throughout the world.

The Housing Office regulates all campus housing areas so occupants feel safe and at home.

Campus housing is available to all students at Southeastern enrolled in a minimum of 6 term hours.

Southeastern has apartment accommodations for student families and dorm or apartment accommodations for single students. Commuter facilities are also available to student families and single students who need housing accommodations for a few nights a week.

THE HOUSE System

The House System is specifically for The College at Southeastern and operates within the College Life Office. However, the House System works closely with the Housing Office, which is responsible for student housing.

The purpose of the House System is to glorify the Lord Jesus Christ by equipping students to serve the church and fulfill the Great Commission by cultivating student communities that foster Great Commission living, academic excellence, community identity and enduring friendships.

The House System is The College at Southeastern's college life program. It seeks to raise up students who are excellent in everything they do and to look like Jesus in every aspect of their life. From the moment a student steps on campus, House System leadership intentionally invest in the community and accountability of each student. All incoming non-married students between the ages of 18 and 24 are placed in a House. There is a housing requirement for most students in the House System (see Residency Policy section).
